WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

STATEMENT

(In the space below, please provide the showing of unavoidable delay recited in paragraph 8 above.)

Attached are declarations of the inventor (Stan Hockerson), a patent attorney (Richard Backus) who at the time the second maintenance fee was due was responsible for paying maintenance fees in United States Patent No. 5,784,808, the secretary/treasurer (John Halberstadt) of the assignee, and the current U.S. patent attorney (Seth Nehrbass) for the inventor and assignee.

The declarations are believed to be sufficient to show unavoidable delay, the steps taken to ensure timely payment, the date and manner in which the patentee was notified of the expiration of the patent, and the steps taken to file the petition timely. Specifically, the delay in payment was due to a docketing error (which, under MPEP Section 2590(I), last paragraph (page 2500-16, Rev. 7, July 2008) is an example of a cause of unavoidable delay), as detailed in the attached declarations. The missed payment was not discovered until around 18 November 2008, and the patent owner and its patent attorneys have been working diligently since then to discover whether in fact the payment was missed, the cause of the failure to pay, and gather evidence to show what caused the delay in payment.
